Mr Cum Posey  
324-13th Ave.  
Homestead Pa.

Dear Posey:

I know you have no information from ODT as yet, but I really am anxious to know something. Cant you tell me how things look? If you dont know how they look, what plans do you have?

I guess everyone knows now we should have had some one in Washington looking out for us, when Landis was there looking out for The Majors. However there is no use talking about what we should have done. You must be given credit for making the,one sensible move we have made up to now. But where do,we go from here? Did you and Dr.Martin stress the,fact that our baseball is segregated through no fault of ours, that we entertain so many Negroes in the south that could have no entertainment at all if it was not for our baseball. (They ate not allowed in theatres etc.) I am sure you brought all angles out, but I wish I had been with you.

Please let me know as soon as you have some word. It is really quite annoying to be up in the air like this.

One thing I am very anxious to know, when is our next meeting. Please let me know this by return mail if possible, as it is hard to get rooms in Washington.

Have you heard anything from any of the teams? I cant help wondering about The Cubans. Can they get the men into this country? Wells and Dandridge have gone to Mexico, but I am working on trying to bring them back. Their draft board let them leave work in defence plants, which does not make sence to me. If we had the right President, he would take care of all these problems, and have them decided once and for all, one way or the other.

Please let me hear from you right away. If you do not feel like writing, telephone or wire me. I want to know when we meet again especially.

Very Truly Yours
